

Ruby Tuesday, #3613
4600 Devine Street
Columbia, South Carolina 29205
October 20, 2005

To Whom It May Concern:

Our Ruby Tuesday has been using the Beer Blast System provided by Machine and Welding for the last four months. During this time we have seen a noticeable improvement in the quality and the quantity of the beer we are getting from our kegs. We have seen an improvement of at least 20+ beers per keg since the system was installed nor have we had a complaint on the taste of our beer.

I highly recommend the Beer Blast System just for the improvement of the beer when it comes to foaming. This is the 5th Ruby Tuesday I have worked in and all have had issues with the beer foaming when the first one is drawn for the day or it's the beer that doesn't sell as well as the others. We just don't have that problem anymore.
